What is Service Learning?

Service Learning has been defined as:

"a credit-bearing educational experience in which students participate in an organised service activity that meets identified community needs and reflect on the service activity in such a way as to gain further understanding of course content, a broader appreciation of the discipline, and an enhanced sense of civic responsibility" (Bringle & Hatcher,1996).

Group chat for girls to walk home safely through Lenton

A second year student at the University of Nottingham has created a group chat called WomenWalkingHome to try and ensure girls' safety walking through Lenton.

Flo Fowler, a French and Hispanic studies student, created a Facebook group chat called "WomenWalkingHome", which provides girls someone to ring if their friends or housemates are unavailable late at night, helping to discourage any perpetrators who would intend to cause them harm.
